Message from SCC President, Dr. Annette Parker

I am very proud to be part of South Central College, and I am excited to partner with business and industry to ensure the success of our students, ultimately benefitting our community and region. Your support will open doors of opportunity for our students, preparing them for a bright future. We look forward to working with you to ensure that an education at SCC benefits our region through:

- Enhanced productivity
- Increased economic growth
- Greater civic engagement
- Improved quality of life for all

I am so grateful for your interest in SCC and our students. Thank you.

Your impact in action

“SCC provides many opportunities for students. I am proud of my successes in and out of the classroom, and I am excited to positively change my future.”

Hussein Osman
Student Senate President
Scholarship Recipient

“Receiving this scholarship shows me that there are people who believe in me and my ability to succeed. It gives me confidence, and I know that I will use the scholarship well. Thank you so much for choosing me as a recipient.”

Mallorie Malenke
Graphic Communications Student
Scholarship Recipient

You can help

Your unrestricted gifts to the SCC Foundation help fund two major initiatives:

Scholarships

Scholarship support for our students ensures they can focus more of their effort on their education and less on the financial burden of paying for their education.

- SCC students who received a scholarship are completing their education and graduating at a rate 50% greater than their peers.
- To encourage more students to aspire to completing a degree, 30 students were involved in a pilot project to establish recruitment and retention scholarships aimed at motivating students towards the completion of their goals.
- Dozens of community members assist in reviewing scholarship applications each year to ensure the most deserving students are awarded the honor. More volunteers are needed. If you would like to be involved, please contact the Foundation Office.

State-of-the-art equipment

To remain strong and relevant, SCC must provide students access to the latest in technological equipment, along with guidance from industry professionals.

- With the help of our industry partners, South Central College Foundation has provided some instructional equipment in 2014. A few examples include: GPS Precision Agriculture Equipment (Agriculture) and a SIM Junior, an interactive pediatric simulator (Health Careers).
- Technology is always evolving, and the need is great for additional equipment.
- Additional assurance that we remain current with the needs of industry is received through SCC’s program advisory committees, which provide guidance to the faculty in our technical programs. We would appreciate your help in shaping our programs to the changing employment outlook. Please contact us if we can count on your expertise in this process.

All about students

- Students are enrolled in more than 40 programs of study.
- Average age of an SCC student is 27.37.
- 4 out of 5 students are employed while attending SCC.
- 84.3% of graduates have jobs in their fields of study.
- Approximately 5,200 degree-seeking students are projected to attend SCC during the 2014-2015 academic year. In addition, over 13,000 individuals will participate in customized training courses this year.
- Nearly 1/3 of SCC graduates continue their education.
- The cost of tuition has remained flat for a second year in a row at SCC.
- This year’s students, if attending full-time, will pay approximately $5,500 for tuition. (not including books, tools, room & board, etc.)
